

Love fundraising, hate apathy

Gift helps charities tackle issues like child abuse, climate change and poverty. Their fundraisers stop people in the street, give them the lowdown on a cause and encourage them to donate. They get their views across convincingly. They cut through apathy.

Hence our 'Anti Apathy' rallying cry to 18-24 year olds who care enough about what happens in the world to want to do something about it.

The link's below; print work's on the next page.

GIFT Anti Apathy

Are you our type?

Ask yourself. Can I strike an instant rapport with people? Can I turn hesitation into action, reluctance into commitment? Can I take rejection on the chin, support my team mates, handle all weathers and put my message across convincingly? Well, can I?

Are we your type?

- We're a tight bunch of people who believe in support, friendship, team work and good causes.
- We love it when you're 100% yourself at work, nothing's more important than being happy in your job.
- We offer loads of training, back at HQ and out on the job.
- We have offices in seven big cities - you can work from any of these.
- The hours are usually 10-6, so no horrid early mornings.
- We offer good rates of weekly pay, with none of the uncertainty that goes with commission-only jobs.
- We're always hiring lively people like you, so you'll never be working on your own.

Who cares?
