on the frontiers of geography. This time next year you could be first-hand the challenges we face in Mexico and Trinidad & Tobago.

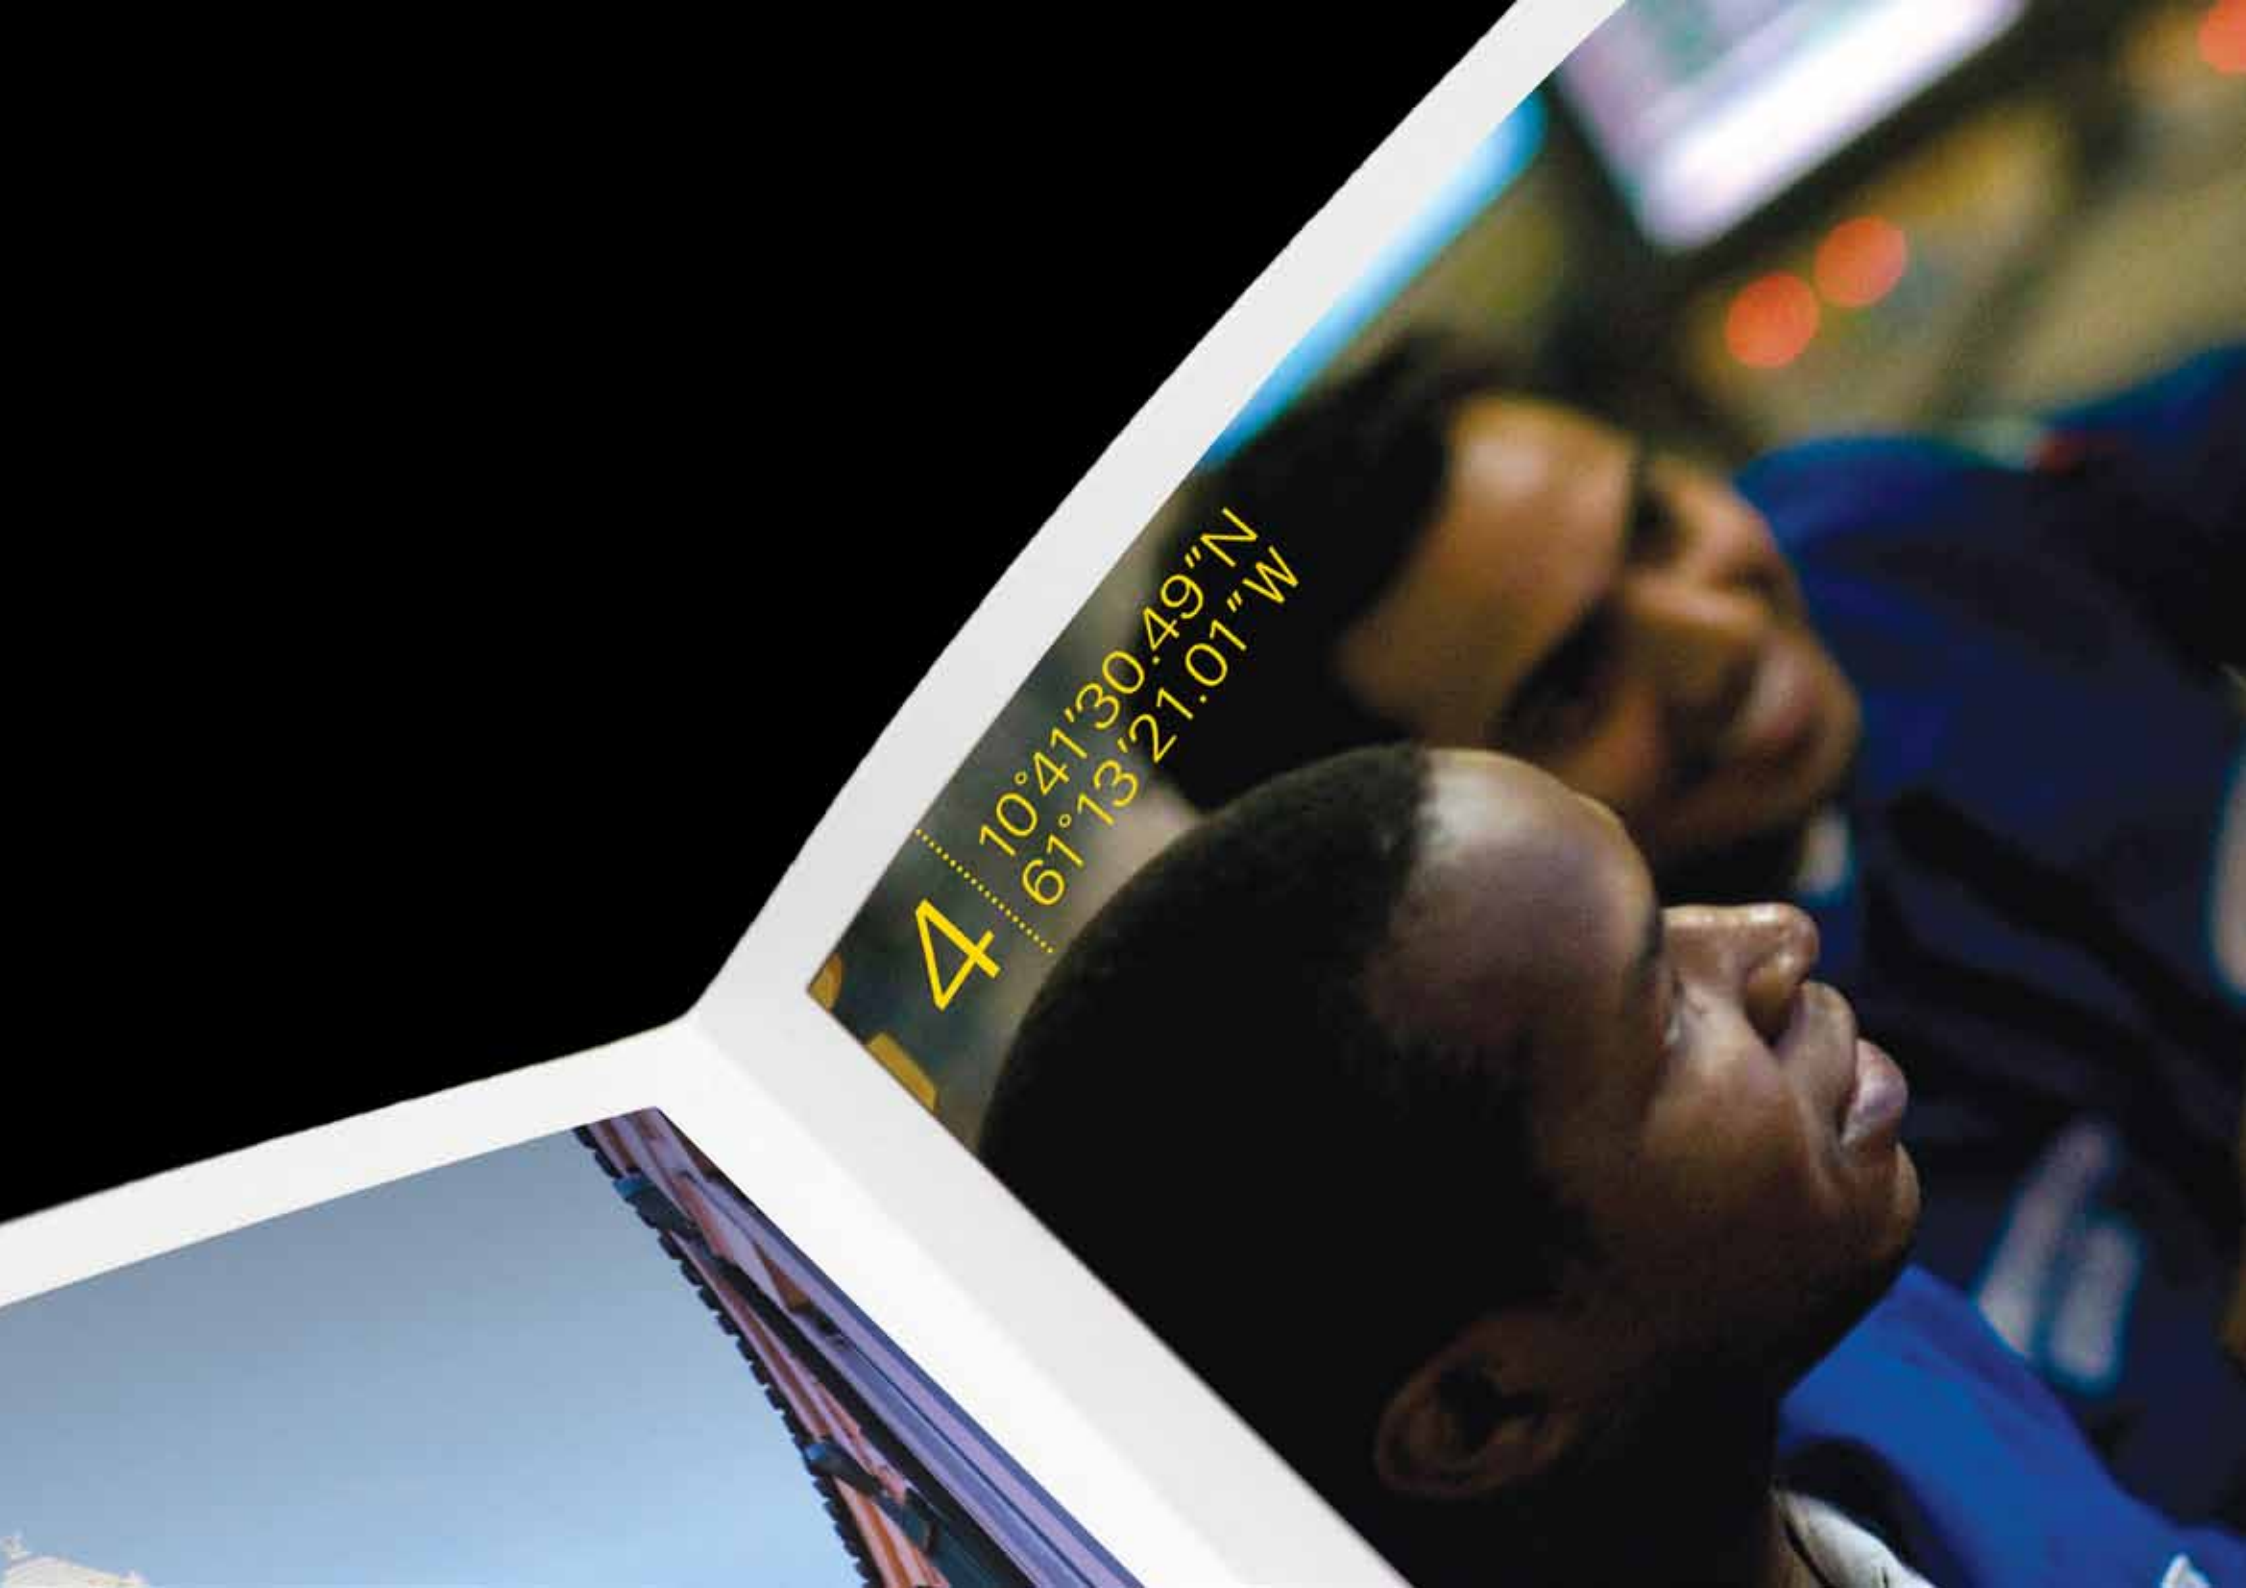

Ultimate Field Trip is a team competition that asks you to solve a real-world problem. First prize is an opportunity you won't find anywhere else – a chance to join the teams working at our largest deepwater oil field, Thunder Horse in the Gulf of Mexico. While you're in the vicinity, we'll introduce you to New Orleans, the birthplace of Jazz and home to some of America's best food and nightlife. You'll also discover what BP is doing in Trinidad & Tobago by working with our operations there. And to make your experience complete, you could visit the world's largest stingray sanctuary with stingrays in the Caribbean.
